A Note from the Editor

It was a perfect weekend for the Dayton Hamvention. Clear skies and moderate temperatures provided a good environment for the largest amateur convention in the World. The XYL, N1LB, and I only got to visit Dayton on the last day, but still had a great time looking over the new equipment lines at the dealers' booths and examining the old equipment lines in the flea market. Word is that the attendance was down again this year which is simply a reflection of the lack of increase in hams ever since the bulge that took place with the last revision in the Technician requirements around a decade ago.

On the technical front, there are some nice packages available which range from truly all-band mobile transceivers that cover HF and VHF/UHF in one neat package by ICOM and Yaesu, to the "computer" transceiver offered by Kachina. The ultra miniaturized HT offerings were also impressive. There seems to be an increase in interest in utilizing the amateur microwave frequencies for digital modes. The permitted baud rate of course increases as we go higher, and there are several groups working on the efficient transmission of data and images using existing packet techniques at these high rates. As a grateful recipient of freebies in past years, I was a bit disappointed to see fewer free sample pins, pens, logbooks and other goodies provided at the major manufacturers' displays this year. I guess their lack of promotional materials reflects the doldrums that the radio market has found itself in. These were the same conditions that prompted the manufacturers to push for the CB craze years ago. I wonder what kind of crazy stunt they'll try this time?

License Restructuring on Hold

An important piece of news came out of Dayton at the FCC forum. The eagerly anticipated but disappointing announcement on the license restructuring scheme was made by Bill Cross, W3TN, of the Wireless Telecommunications Bureau. He is quoted as saying, "I can confirm without reservation that the rumors that have been flying fast and furious as to what the Commission has decided or will decide are just rumors". Cross said that the FCC received 2250 comments on WT Docket 98-143, and more are still trickling in. He has several copier paper boxes full of the comments in his office. Much of the delay has arisen because each comment must be carefully logged and categorized.

W3TN

Within a week's time of learning of the status of the restructuring docket at the FCC, the ARRL shot off a letter to the Wireless Telecommunications Bureau Director urging the FCC to act "without delay" and to accept the League's restructuring plan. As you may recall, the ARRL plan proposes a reduction to 4 license classes with the elimination of the

Equipment Donated

A longtime and founding member of the WCARC, Dick Sprout, K8HWU, passed away last year. His radio equipment was donated to the WCARC for disposition. A silent auction will be held after the June Club meeting on June 14th, and the equipment will be given to the highest bidder for each item. A list of the equipment is given below:

1. Heathkit HW-12 80m SSB XCVR/supply
2. Heathkit HW-32 20m SSB XCVR/supply
3. Heathkit HW-101 80m-10m XCVR/supply
4. Heathkit SB-100 80m-10m XCVR/supply
5. Heathkit HA-14 SSB Linear Amplifier/1000 W
6. Heathkit AM-2 SWR Bridge
7. Heathkit HW-2036 2m XCVR/supply/mic
8. Heathkit HN-31 Cantenna Dummy Load

Hamarama News

The WCARC Ham-a-rama will be held on Sunday, July 11th this year. Tickets are available – contact N1RB at (419) 354-1811. Cost is \$4.00 by July 10th and \$5.00 the day of. The prize line-up is as follows:

- 1st prize:** \$300 cash
- 2nd prize:** \$100 cash
- 3rd prize:** \$50 cash
- 4th prize:** \$50 cash

Prizes winners will be drawn around noon at the Hamarama.

Mobile Equipment Stolen!

Be on the lookout for a 2 meter mobile transceiver: Yaesu model CPU-2500. The owner is Jim Keen, WB8NYM, and he can be contacted with any information leading to the recovery of his equipment at 372-9377 or 353-7233.

Volunteers Wanted!

The 1999 American Lung Association is sponsoring a Big Ride across America this summer. It is a 3,500 mile bicycle ride from Seattle to Washington, DC that takes place from June 14th through July 25th. The Ride will travel across Ohio from July 21st through July 25th. They enter from the west on Route 6, and parallel the highway through Napoleon and Bowling Green, then on to Fremont and Sandusky. We have been notified that the group will be using our repeater during their trek through Wood County. They would very much appreciate it if we could have some volunteer monitors listening to the machine to help out with any emergencies or queries. Most likely this will occur on the first 2 days they are in Ohio (July 21/22). They would also like to have 8 volunteer operators to ride with them all the way across the country. For more info, check with Dick, KE7A, at www.bigrade.com. ■

Pagers Available

A quantity of voice pagers is available to members of RACES/ARES at a small fraction of the original cost. The estimated total cost of the pager with crystals is \$35.00. This is a one-time charge and there is no monthly service fee. If you would like to be alerted to local emergency situations quickly, a pager fills the need ideally, and is a really good deal cost-wise. One of the objectives stated by the WCARC President, Larry Reitz, is to have all Wood County RACES/ARES participants equipped with pagers so that quick call ups can be made in time of emergency. For further information, please contact Larry, WA8CWD, at (419) 837-2202. ■

Nordonia HS, Macedonia, OH. SR 8 to SR 82 E, then south on S. Bedford Rd. Contact Rich, N8FIL, (800) 404-2282.

June 20 Monroe County RCA 7:30am - 1pm

Monroe County (MI) Fairgrounds. M-50 at Raisinville Rd. (2 mi. west of Monroe, MI). Contact Fred, KA8EBI, (734) 242-9487.

Restructuring - continued from page 2 -

Novice and Technician-Plus classes. In the letter, the League declares that the most important item in its proposal is the "refarming" of the HF Novice sub-bands over to phone use. The League proposal also includes a reduced CW proficiency requirement for HF work, and a "grandfathered" improvement in the privileges currently held by Novice and Technician-Plus licensees. The best speculation now is that the soonest we can expect an announcement from the FCC is mid- to late July. ■
