Field Day 2022

Field Day 2022 was favored with excellent weather on both Saturday and Sunday. K8TIH operated in class 3A with at least seven operators participating at different times. Dinner on Saturday was by pizza delivery to the site. Preliminary estimates of the Club score give a total of about 2000, pending contributions from individual stations.

Several photos of the activities at the Museum grounds are included below. Thanks to NM8W and WB8NQW for the fine photography.

Our youngest operator makes his very first phone QSO—do you remember yours?

It's always important to keep an accurate log—write it down immediately after the contact.
